Education

Secondary School Certificate (SSC)
Raniali High School, 2021

Projects

Gardening Community & Resource Hub
Full Stack Developer

[**Live Site**](#)

• Developed a full-stack web platform connecting gardening enthusiasts with features including user authentication, private/public routes, tip sharing and management, like system, trending tips, and featured gardeners.
• Implemented user authentication via Firebase (email/password and Google login).
• Created private and public routes for managing and browsing gardening tips.
• Integrated real-time-like system and interactive UI components using React and Lottie animations.
• Ensured responsive design for seamless experience on desktop, tablet, and mobile devices.
• Used MongoDB Atlas for database storage and deployed the backend on Vercel.
